Speaker Summary:

Michael Soto joined Fishnet Security as a Mobile Security Architect in July 2013. He brings with him over 20 years of Information Technology experience working almost exclusively with Fortune 500 organizations. His career highlights are a showcase of his desire to remain in the front of the hottest technologies in IT and Security. In 2001, Mr. Soto cut his teeth and excelled as an Enterprise Architect focusing on larger customers seeking to migrate physical servers to virtualized environments. In 2011, Mr. Soto continued his drive to remain on the cutting edge, moving his focus to Enterprise Mobility. He served as a Senior Consultant, guiding organizations through the challenges of selecting an appropriate Enterprise Mobility solution and focusing on the following products; Xen Mobile, MaaS 360, Mobile Iron, AirWatch, Good and Blackberry Enterprise Server.

Mike and his wife have two children. As a devoted father, Mike spends his spare time as an Assistant Scout Master for his son's Boy Scout Troop. The Soto's, Mr. and Mrs., enjoy tough physical training. They are both active in the mud and warrior dash run events and serve as life fitness coaches. One thing is for certain, you will also find Mike holding one of his DSLR cameras and capturing the environment and the moment. Mike has a website where he sells many of his photos.

Presentation Overview:

Many organizations from the SMB (Small-Medium Business), enterprise and Fortune 500 struggle with the constantly changing landscape of mobility. Knowing what devices to support, understanding threats and liabilities are some of the top concerns many in the IT industry wrestle with on a daily basis. This presentation will inspire thought and interactive conversation on how to mitigate known threats and future considerations when it comes to mobility. The high level topics to be covered in this presentation include:

- Mobile Trends
- Mobile Risks & Threats
- Mobile Security Technology
