Annual Business Meeting & 2012 Data Breach Investigations Report

Following lunch we will have the annual ISACA KC business meeting. The meeting will include an address from our President, BJ Smith followed by the election of Board members for the 2012 – 2013 term. All current/paid Kansas City ISACA chapter members are eligible to vote. The chapter address and election will be followed by a presentation.

Date: May 10th, 2012

Time: Registration 11:30 AM | Lunch 12:00 PM| Business Meeting and Presentation 1:00PM

Location: Plaza III Steakhouse | 4749 Pennsylvania | Kansas City | Missouri

CPE: 2 Credits *The actual CPE hours granted are dependent upon duration of the speaker's presentation and may differ from the advertised number of CPE hours.*

Price: Free

Registration: www.isaca-kc.org by Monday, May 7. Please note this meeting is open to current/paid members and students of the ISACA-KC chapter only.

Speaker: Michael Rosen – Senior Investigator, Verizon Investigative Response
Michael has over thirteen years of experience in the information security field, and is currently a senior investigator within Verizon Investigative Response (VzIR). In this role, he is a trusted subject matter expert for digital forensic investigations - most of which involve Fortune 500 global organizations and government entities. The VzIR team is an integral part of the Verizon Communications Inc. RISK Intelligence team. Within this global team exists digital forensic experts, that are well versed in both criminal/civil investigative requirements. These experts often interact with government entities in transitioning case evidence while setting the stage for prosecution.

Program: Michael will discuss the 2012 Data Breach Investigations Report and lessons learned. This presentation will highlight the significant statistics within the DBIR and what organizations can do to not become one. The 2012 DBIR was a study conducted by the Verizon RISK Team with cooperation from the Australian Federal Police, Dutch National High Tech Crime Unit, Irish Reporting and Information Security Service, Police Central e-Crime Unit, and United States Secret Service.

The information presented and included in accompanying materials (if any) is of a general nature and is not intended to address the circumstances of any particular individual or entity. Although the speaker and content authors endeavor to provide accurate and timely information, there can be no guarantee that such information is accurate as of the date it is received or that it will continue to be accurate in the future. No one should act upon such information without appropriate professional advice after a thorough examination of the particular situation.

News from ISACA

ISACA Partners With Deloitte to Offer New Training Course in Chicago

Rolling Meadows, Illinois, USA (12 April 2012)—ISACA, a nonprofit association of more than 95,000 IT governance professionals in 160 countries, is partnering with Deloitte & Touche to offer a new, in-depth training course on audit and security. ISACA will host Network Security Auditing in conjunction with Deloitte on 14-17 May 2012 at Deloitte & Touche in Chicago, IL, USA. Attendees will benefit from a range of hands-on presentations and demonstrations, and will learn how to:

- Scope, plan and perform a network security audit
- View and help protect the network perimeter of the enterprise
- Maximize firewall functionality and configuration
- Evaluate digital risk and techniques for managing vulnerabilities

“ISACA has re-energized its training program with new opportunities to gain a solid foundation in information security, IT audit and enterprise governance of IT,” said Ken Vander Wal, CISA, CPA, international president of ISACA. “Attendees will leave with valuable tools and the expertise they need to protect and govern their enterprise and help ensure trust in and value from their information systems.”

The ISACA/Deloitte Training Course registration, which includes course materials, is US \$2,500 for ISACA members and US \$2,700 for nonmembers. Participants are eligible to earn up to 32 continuing professional education (CPE) hours.

For additional ISACA Training Courses information and to register, please visit www.isaca.org/trainingcourses.

ISACA Issues COBIT 5 Governance Framework

ISACA has released COBIT 5, the only business framework for the governance and management of enterprise IT. The new version of COBIT promotes seamless continuity between an enterprise’s IT department and its overall business goals, and represents a major evolution of the globally accepted framework in use at enterprises worldwide for more than 15 years. The COBIT 5 framework is available from ISACA—a nonprofit global association of more than 95,000 IT governance professionals—as a free download at www.isaca.org/cobit.

The new version of COBIT is also designed to integrate other approaches and standards, including TOGAF, PMBOK, Prince2, COSO, ITIL, PCI DSS, the Sarbanes-Oxley Act and Basel III.

COBIT 5 is available to all as a free-of-charge download at www.isaca.org/cobit. ISACA also today released COBIT 5: Enabling Processes (free to ISACA members and US \$134 for nonmembers) and *COBIT 5 Implementation* (free to ISACA members and US \$50 for nonmembers), which help framework users apply the guidance. Print editions of all three guides are available for purchase from the ISACA Bookstore (www.isaca.org/bookstore).
